

## **EXPORT CONTROL OF NUCLEAR MATERIALS, TECHNOLOGIES AND DUAL USE COMMODITIES**

**I. E. Anokhin, A. V. Vertsimakha, V. V. Davidovsky, S. A. Yatskevich**

Modern problems of the export control system of nuclear materials, technologies and dual use commodities in Ukraine are analyzed. The examples of successful solutions of these problems in the framework of INR and SSECU joint projects are given. The software products, developed in the INR for the system of export control of Ukraine, are reviewed. Further integration of the INR into the system for export control is underlined to be perspective.
