

WKB-APPROXIMATION FOR GREEN'S FUNCTION OF TWO NON-INTERACTING PARTICLES IN THE EXTERNAL ELECTRICAL FIELD

V. P. Verbytsky, L. Ya. Zhukalyuk, K. O. Terenetsky

The quasiclassical (WKB) expression for Green's function of two non-interacting particles in the external electrical field has been obtained and its radial dependence has been investigated. The essential spatial localization of the real part of this function has been shown.
