

# **THE TIME OF FLIGHT SPECTROMETRY FOR FAST NEUTRONS OF CALIFORNIUM SPONTANEOUS FISSION**

**I. P. Dryapachenko, E. M. Mozhzhukhin, A. Ya. Khudenko**

In the given activity the registration technique and outcomes for  $^{252}\text{Cf}$  spontaneous fission neutron spectra for piloting of full-scale time-of-flight spectrometer of fast neutrons without usage of an accelerator beam is discussed.
