

**AUTOMATIZED MEASURING SYSTEM FOR NEUTRON PARAMETERS  
OF THE SUBCRITICAL NUCLEAR MATERIALS**

**F. N. Berezin, A. P. Voiter, V. N. Pavlovich, V. A. Kisurin, I. A. Maznyj,  
A. N. Kovalev, M. I. Doronin, S. A. Storozhenko**

Multichannel measuring system of the new generation and the procedure for determining neutron parameters of the subcritical nuclear materials based on the precision determination of time intervals between the neutron detectors' signals and new methods of handling of experimental data is considered.
