

## **16. THE RESEARCH OF THE SCATTERED RADIATION OF ELECTRONS LINEAR ACCELERATOR**

**I. M. Vyshnevskiy, T. V. Khrin, V. I. Sakhno, O. V. Sakhno, A. G. Zelinskyy, S. P. Tomchay, N. V. Khalova**

The results of experimental measurement of undesirable radiation leakage from linear accelerator (electrons energy 4 MeV) of "Electronica" series are discussed. The scheme of measuring means and methods of processing of the information are updated. Radiated background from installation was investigated.
